Russ Segner

Glenn Farley was presented with his Master Model Railroader plaque this week at an open house of fellow MMR, Dave Woodrell. Glenn models in On3, but has won many awards for his modeling in HO, including a Best of Show at a NMRA Convention for a scratch built HO steam locomotive.

His home On3 layout includes a complete Gunnison roundhouse which he created in collaboration with Clint Crow.

Glenn will present clinics on working with brass and illustrate his techniques at our upcoming PNR Convention this June. Congratulations, Glenn.
